An OWL card is the official photo identification card for the Florida Atlantic University community and will serve as your library card allowing you to check out physical books, DVDs and more from the library.

OWL cards are no longer required to obtain remote access to the library! EZ Proxy now includes a field to enter either a user’s FAU NetID OR their OWL card number to get access to our electronic resources. All affiliates are given email addresses when their paperwork has been completed and thus can access our resources using just their FAU NetID and password.

Should you wish to check out physical (e.g., print) materials from the library or to access additional OWL card benefits such as local discounts, you may opt to request an OWL card by contacting

**Library Websites**

**Main FAU Website**
https://library.fau.edu/

**Medical Library Portal**
https://library.fau.edu/medical

**Off Campus Access**
https://login.ezproxy.fau.edu/login

EZProxy/ Off Campus Connect can be accessed through the above link OR through either the main FAU library website or medical library portal.

All students and faculty must login through EZ Proxy when off campus. In order to access journals and databases, log in via EZ Proxy with your FAU Net ID and password. If you have problems with EZ Proxy, call the library circulation desk first and they can check your account (561-297-6911).

**OneSearch**

**OneSearch** is a tool for searching across most of the FAU Libraries resources. Use it to search for journal articles, newspaper articles, books, digital collections, government documents, maps, music recordings, videos, and more.

---

**ACCESS TO LIBRARY RESOURCES**

**Find it @ FAU**

Clicking on the “Find it @ FAU” automatically searches the entire FAU holdings to determine if full text access of the chosen journal article or individual journal is available. Be sure to sign into EZproxy **BEFORE** searching a library database (such as PubMed) to insure you will have access to more full-text articles. Findit@FAU will NOT appear if you are not logged into the EZproxy. For example, this service is available in PubMed where the icon will appear on the top right of the screen when you click on a specific article. This is in addition to PubMed’s routine linking out to available “free articles” from PubMed Central and other services.

**Interlibrary Loan**

If you require materials (books or articles) that the FAU Libraries do not have available, you can request them through Interlibrary Loan. You will need to register with your FAU email and make an account the first time you use the service. Please use your FAU email.

**UBorrow**

Allows you to request books directly from participating libraries within the Florida state university system. This unmediated borrowing service increases your access to the collections of the other universities in Florida and delivers more quickly than standard Interlibrary Loan.
